Dear DSA Parent/Guardians,

I would like to make you aware of an incident that occurred yesterday after school at McAuliffe School to a female student. While the student was walking home from school she was approached by a man near the intersection of 19th Avenue and Kearney Street. The man grabbed and groped her before she was able to run away. The student immediately reported to her parents what had happened, and the incident was reported to Denver police.

Denver police are conducting an investigation, and DPS Safety and Security have increased patrols in the neighborhood. The suspect is described as possibly Hispanic, being 5 feet, 4 inches tall with a slim build.

This student did the right thing by immediately telling a trusted adult what happened. I'd like to take this opportunity to once again remind our families and students that safety is a top priority in Denver Public Schools and at Denver School of the Arts. As a community, we must work together to ensure the safety of our students at all hours of the day.

I encourage you to take this chance to talk with your child about contacting an adult immediately if they ever feel unsafe, confirming after-school arrangements together and showing your child how to dial 911 from a cell phone if he or she ever feels unsafe. Here are additional safety tips:

- Teach your children to use the buddy system and to walk with a friend or sibling whenever possible.
- Know where they are at all times. Establish good communication with children to ensure they readily will report to you any unusual occurrences.
- If they are approached by strangers, they should take several steps backward, stay out of arm's reach and run to a safe area. If they are confronted, they should be taught to scream "I'm not your child" or "You're not my parent." Many times children forget to scream.
- Make sure children learn to identify safe people such as policemen and firemen. Show them where safe homes or buildings are in case they need to run to them. Identify which neighbors are available to help when you are not at home. In an emergency situation, children should run to the nearest house for assistance. **They should avoid alleys and empty lots, houses or garages.**
- Parents and children should establish a password known only to the immediate family. Children should be told not to go with an unfamiliar person without using the password.

- Parents should notify both the school and the police if an incident occurs anywhere or anytime.

As always, feel free to contact us with any questions or concerns. Thank you for your support in keeping our students safe.

Sincerely,

William Kohut

Principal
